

Voices of Recovery from Soberstock 2011

Recovery means getting my life back; and I didn't know how much I lost until I got it back. Now, I can be useful....to my fellow human beings, to the world, and to God.

I can learn how to handle life and get more out of life than I ever thought possible. Recovery means a closer relationship with my family and a closer walk with God.

Now, I am able to give back, and that will keep me healthy and grateful.
