

Voices of Recovery from Soberstock 2011

Recovery has dramatically changed my life. When I came in I was near death. It allowed me to improve the quality of my life. I was able to put my faith in a power greater than myself and he helped relieve my defects of character.

AA saved my life. I have found a new freedom and a new happiness. The promises are real. I came from an alcoholic family, and grew up in bars. I blacked out almost every time I drank. I gave up my son. I raced cars in the street. Thankfully, I never killed anyone. That was 15 years ago.

Today, I am a sober woman of dignity. My gratitude knows no bounds. I will be forever grateful to AA and my higher power.
