

Voices of Recovery from Soberstock 2011

"...but AA has taught me I am the result of the way I reacted to what happened to me as a child. What is more important to me, A.A. has taught me through this simple program I may experience a change in this reaction pattern that will indeed allow me to 'match calamity with serenity.'" (AA Big BOOK from Freedom From Bondage pg. 544)

Recovery has changed my perception on life and how I handle life's situations. I have begun to live my life instead of be held hostage by an obsession that was out of my control. I have true friends today; I can help others the way that they have helped me.

Sobriety is the best thing that has ever happened to me. So many blessings; they keep coming all the time. Thank you God, AA, and my support group.
